Divide Weitendorf School Between Mokena, Frankfort

On July 1 the Weitendorf school district, along with Schmuhl and Marley district will become memories.

Schmuhl becomes a part of New Lenox grade school district, No. 122, and Marley is divided between New Lenox and Mokena grade school district, No. 159, as has been related previously.

Last week the Will county board of school trustees voted to dissolve the Weitendorf district, No. 154. A part, that north of U. S. 30, will become a part of the Mokena district, while the area south of the Lincoln highway will be joined to Frankfort district, No. 157-C.

At the hearing conducted in the supervisors chamber at the courthouse in Joliet no one appeared to object to the division of the Weitendorf district.

The directors of the district, the Frankfort and Mokena school boards and residents of the area were all in favor of the move and the trustees voted unanimously to divide. The action was taken the night of April 23 and becomes effective July 1.

Dist. 154 has an area of eight square miles of which about three-fourths will be attached to the Frankfort district, and the remaining one-fourth to Mokena. The assessed valuation of the part north of U.S. 30 is placed at approximately \$566,000 while that of the portion south of the highway is assessed at approximately \$1,700,000.

As of now there are 43 pupils in Weitendorf school, 29 of whom reside south of the highway and 14 live north of U.S. 30.

Frankfort school has an enrollment of 273; it has a bonded debt of \$140,000 and the tax rate is \$1.340 per \$100 assessed valuation.

Mokena school has 428 pupils; it has a bonded debt of \$195,000 and a tax rate of \$1.234 per \$100 assessed valuation.

Weitendorf has a bonded debt of \$14,500 and a tax rate of 73.7 cents per \$100 assessed valuation.

Weitendorf school was made by joining the old Hinspeter and the Cleveland schools. There are two teachers, each having four grades. The new state superintendent of public instruction, Ray Page, has decreed, it was stated, that no

Former N.L. Grocer Dies

Albert C. Hamilton, 74, late of 917 S. Cedar Rd., New Lenox, died Thursday, April 25 at Silver Cross hospital, following an illness of several months. Funeral services were conducted Saturday, April 27, at the Baskerville chapel, at 2 p.m., with the Rev. Alfred H. Hunter, officiating. Burial was in Elmhurst cemetery at Joliet.

Mr. Hamilton was born in Alden County, Ia., came to Lockport as a child, and lived in Lockport and Plainfield for many years. He was educated in the Lockport public school. He came to New Lenox in 1939 and operated a grocery store on South Cedar rd. for sixteen years. He was a past president of the Painters Union, local #33.

Besides his wife, Mabel nee Kirchner, Mr. Hamilton is survived by three sons, Earl of Plainfield, Donald of Lockport and Albert Jr. of New Lenox; six daughters, Mrs. Loretta Countrymen of Plainfield, Mrs. Violet Rutherford of Joliet, Mrs. Mae Bruntjen of Lockport, Mrs. Betty Schrank of Mokena, Mrs. Evelyn Cruise of New Lenox and Miss Helen Hamilton of New Lenox; three sisters, Mrs. Herman Kirchner, Mrs. Albert Brankoff, both of Lockport and Mrs. Walter Ruby of Taveras, Florida; three brothers, Robert, Harry and Martin, all of Lockport, 31 grandchildren and 20 great grandchildren.

teacher will be permitted to handle more than three grades if the school involved is to remain accredited. This would mean that next year Weitendorf would have to have three teachers and this would be too much for the district's finances, it was pointed out.

George Carlisle, David Friant and James E. Konecny are the three directors of Weitendorf district. Friant circulated petitions for the division of the district south of the highway and Carlisle, who lives north of the highway circulated them there. He has a son graduating from

the school this year. Carlisle told the trustees that he felt a two-room school "lacks depth" and he believes pupils would get a better education in a larger system.

The Weitendorf directors and the Frankfort and Mokena boards are now working out the details of dividing the assets and liabilities of the district.

It was said that the appraised value of the property and the funds will be credited to Frankfort and Mokena districts on the basis of average daily attendance for the last full year.

March-On-Leukemia Set For 1-5 P.M. Sunday

Teen-agers of the Mokena and Arbury Hills area have volunteered their services for the Danny Thomas Leukemia fund drive scheduled for this Sunday, May 5, from 1 to 5 p.m.

This is the second annual "Teen-age March Against Leukemia." National chairman is Danny Thomas, TV star.

Miss Lynn Fitch, of Arbury Hills, is local chairman, and she is seeking to enroll more teen canvassers. She asks those who have any questions concerning the drive or who would like to volunteer their services to call her at 479-5646.

Any teens between 13 and 18 are eligible to join in the door-to-door canvass to raise funds for the maintenance of the St. Jude Children's hospital and research center recently dedicated by Danny Thomas at Memphis, Tenn.

Last year over one million teen-agers in 71 cities across the nation raised over \$800,000 for the maintenance fund for St. Jude's hospital. This year they expect to raise more than a million dollars.

St. Jude's is the only hospital of its kind today. There children of every faith, race and color are receiving free care and treatment for leukemia or associated blood diseases, Miss Fitch pointed out.

The administrative expense of the campaign is held to a minimum, it was stated, so that 92.5 of every dollar contributed is put to work.

Volunteers who have signed up to date include:

Teen-agers that volunteered in the Arbury Hills and Mokena area are Lynn Fitch, Priscilla Fitch, Pat DeGries, Leta Will-

Stanley Warning, representing the company, received the large plaque during an honor assembly held Friday morning before the Lincoln-Way student body.

the Teens club of Arbury Hills. These young people will make a door to door canvass of Arbury Hills, and they will ask you to be as generous as possible for this worthy cause.

The Teens Club held their second April meeting at the school on April 22. The chap-erone for the evening was Carl French, of Arbury Hills.

One speaker will explain the necessity for the request by the water company for a raise in water rates in Arbury Hills. The other speaker will bring forth the advantages of incorporation for Arbury Hills. At an upcoming meeting there will also be an effort made to present the disadvantages of incorporation for Arbury Hills.

There were also several special prizes given out that night. The top prize of \$50 was won by Frances Cook of Frankfort. The 8 x 10 portrait by Behnke was won by the mayor's daughter, Miss June Swanberg. Members nominated were: Cecil T. Baldwin, president and Joe Urban, vice-president, both of New Lenox and Ernest Westphal, Mokena. The member to serve as secretary is still unnamed as nominations were declined at the meeting. Installation of officers will take place in May.

An oboe and English horn duet were played by Martha Otto and Letty Fiegen entitled Rondo by Barret. This was the state contest number played by the girls, which awarded them a superior rating.

Robert Taylor, band director, expressed his gratitude to the band for their time and effort spent in practicing prior to the contest and proudly presented a plaque signifying the band as state champions for the second consecutive year in the class "A" division.

WINNERS of second place in the brass classification was the New Lenox Garden club, represented by Mrs. Walter Houchin and Mrs. Rudolph Stelter. About 55 parents and friends were present to see the neat full dressed maroon and gold band members. They played the same selections that won in the first rating in district competition. The selections were difficult but the band played them well.

Spare Those Cables! Begs Illinois Bell Wire Chief

Now that spring's here and outdoor activity is in full swing, telephone men have their fingers crossed. Not that they aren't happy that the birds are back with us and the snow shovel has been put to rest; they are happy but anxious.

Telephone men are concerned about the constant threat that digging by excavators may accidentally cut or damage telephone cables buried under parkways, streets and other locations.

"Even an energetic gardener wielding a spade could slash through a cable," Russ Young, wire chief for Illinois Bell Telephone Co. said.

Such accidents, many of which can be prevented by a mere

phone call to the telephone company's "Repair Service" (check in your local directory for the number) cause severe human problems in a neighborhood or whole communities. The interruption in vital telephone service is more important than the money cost of repair.

So, Illinois Bell has opened an all-out campaign to protect the buried "lifelines" that keep homes and businesses, doctors and hospitals and institutions and schools in touch with each other. Injury to these buried cables is a real threat to telephone service, thus menacing entire neighborhoods, cutting communication necessary for home emergencies.

But what happens when a

cable is abruptly cut or nicked by the chisel tooth of a power digger? Let's take a look at what happened on a recent morning in a western suburb.

A construction crew installing a new sewer line cut the main telephone cable serving the community. Its power shovel had mangled 25 feet of cable affecting the service of some 600 phones. Virtually the whole community was without telephone service, including the police lines.

Three Illinois Bell mobile telephone cars were rushed to the area to handle emergency calls. They cruised the streets and handled about 60 emergency calls by the time complete service was restored 16 hours after the power shovel had dug into the cable.

In major cases of failure, the company emergency plan geared to provide immediate partial service is placed into effect. The plan includes rushing into the affected area any or all of the following units: Mobile Telephone Center (bus) with 15 phones and eight radio-phones, mobile telephone cars and the public telephone trailer with six phones.

During the first 8-1/2 months

of 1962, Illinois Bell counted 440 cases of damage to its underground facilities -- of these 78% were caused by diggers who did not call the telephone company about the location of its buried cables.

Many precautions are taken by the telephone company to prevent scores of similar cases. How does Illinois Bell and the Bell System try to avert such accidents?

Routes of most telephone cables are posted with signs that are visible in the two directions the cable travels. Telephone people patrol buried cable routes to keep abreast of im-

minent digging operations by contractors, farmers and other utilities.

But even these precautions do not assure complete success. An individual with a post hole digger may easily bite into a cable. But whether it's a huge power shovel or a do-it-yourselfer's spade that knifes into a cable, the resultant loss of service is the same.

The telephone company estimates that in 1962 a minimum of 100,000 telephone users were deprived of telephone service for at least four hours or more, as a result of hasty, careless digging. About 1,600

of these lines served fire, police and other special services.

Illinois Bell's campaign to try to halt needless disruption of telephone service includes television commercials, a special notice in "Telebriefs," the publication that accompanies telephone bills, newspaper advertising in areas where damage has been especially heavy, and letters and

personal visits to contractors urging them to consult Illinois Bell before they place digging equipment to work.

The telephone company doesn't expect anyone to have X-ray eyes to see its cables underground, but it adds a simple suggestion. And that is: "Before you dig, please call Illinois Bell's 'Repair Service.'" It's a step toward a safer, more trouble-free living for everyone in town.

Nov. 2 To Be High School Band Day At U. Of Illinois

"Band Day," a new University of Illinois Big Ten Football game feature with high school bands from all parts of Illinois as guests and participants, will be observed Saturday, Nov. 2 at the Illinois-Purdue game, Everett Kisinger stated.

Registration Of Cars Up In Illinois

Motor vehicle registration in Illinois for the first quarter of 1963 increased 118,994 over the same period last year, Secretary of State Charles F. Carpenter reported today.

At the end of March, registration totaled 3,793,590. Mr. Carpenter said, increases were noted in three categories by dealers.

The breakdown by categories follows:

Passenger cars; 3,126,410 for 1962; 3,218,915 for 1963.

Trucks and buses; 429,112 for 1962; 438,618 for 1963.

Trailers and semi-trailers; 100,646 for 1962; 116,491 for 1963.

Motorcycles; 10,780 in 1962; 11,994 in 1963.

Dealers; 7,648 in 1962 and 7,572 in 1963.

Six-Horse Hitch Will Put On Show

Persons who attend the field demonstration of the Wheel Horse garden and lawn tractor to be staged by the Yunker Implement Co. Sunday afternoon, May 12, will see an added attraction.

The Bolger Dairy's famous six-horse hitch of matched Clydesdales will go thru their paces for the spectators.

"Most people are familiar with riding horses and race horses but one seldom sees the handsome big draft animals, the 'work horse' that once were such a part of the picture of Illinois farms," said Erwin W. Yunker. "The appearance of this Bolger hitch should be a treat. They are beautiful horses and well worth the time of anyone that attends our demonstration."

Mr. Yunker also is enthusiastic about the Wheel Horse lawn and garden tractors that also will be put thru their paces.

The time for the demonstration, that is to take place at 159th and Wolf road, is 1 p.m., May 12. In the event of rain it will be held the following Sunday, May 19.

Every high school band in the state will be sent information involving participation in the event which has been sanctioned and authorized by the Illinois High School Association, Kisinger stated.

Plans for "Band Day" include pre-game and halftime formations by the "Marching Illini" and massed high school bands in uniform. Arrangements are in charge of the department of bands and the Athletic department, with assistance from the school of music and division of university extension.

"The sight and sound of thousands of uniformed high school bandsmen from all parts of Illinois should be as thrilling to participants in the massed numbers as it is to spectators," Kisinger commented.

Seventy-six trombones will be just a starter.

Personal Property Tax Gets Brush-off In Towns

A vigorous interest in property taxes was displayed in Homer township, when a crowd estimated at over 100 turned out for a PTA meeting. This was a record crowd according to the president of Homer PTA, Mrs. Owen Doyle.

The scene was Homer Consolidated Grade School District 33-C. Eugene Malone, secretary of organization for Will County Farm Bureau was the speaker on the subject of property tax delinquency, and its effect on local government.

Malone stressed the interest of the Farm Bureau in improved administration of local tax laws with particular emphasis on collection of delinquent taxes.

In reviewing the local tax delinquent situation Malone pointed out that delinquent personal property taxes for the county for 1958-1961 totaled more than 2 1/2 million dollars.

He cited strictly rural townships where over 90-95 percent of the personal property taxes are collected as evidence that farmers are paying their share. Figure from Joliet and Lockport where Malone said most of the delinquent taxes are, showed 77 and 90 percent respectively of the taxes collected, but 80 percent or more of the individual items in those two townships are unpaid. Malone said this indicated that most industries are paying, while many individuals are not.

Malone pointed out that each delinquent item by itself has an insignificant effect on revenue to the local taxing units, but added that of some \$490,000 delinquent tax in Jol-

iet township in 1962, over \$61,000 should have gone to the city of Joliet. In the same way Joliet grade school district #86 lost over \$142,000 and Joliet township high school lost \$147,000 or more.

Of the more than \$14,500 delinquent tax last year in Homer township \$1508 should have gone to District 33-C; \$3905 to Lockport township high; \$2447 to township funds; \$874 to the county and \$141 to Homer fire district.

Among suggested remedies, Malone listed the importance of revised tax laws of Illinois to provide relief for property taxes by broadening the tax base.

"In the meantime," Malone said, "despite all unfairness in the personal property tax law, the most unfair part is that some pay it, while others do not." He urged the listeners to expect and insist upon good administration of local tax laws from assessment to collection and distribution of funds.

To the man who can't work in air-conditioned comfort

(but would like to come home to it)

You can have Whole-House Electric Air Conditioning in the average 6-room home for as little as 50¢ a day.

(This includes maintenance as well as

operating costs.) It's bad enough to have to work all day in hot, sticky weather. But it is even worse to come home to a house that's too hot and humid for sleeping.

Nowadays there's something you can do about it. It's called Whole-House Electric Air Conditioning, and the cost is a lot lower than most people guess.

Public Service Company

ELECTRICITY IS SIMPLICITY

For instance, to have it installed in the average 6-room home usually costs from about \$800 to \$900.

Operating costs will vary, but 50¢ a day for operation and maintenance over a period of 120 days is close to the average.

Electric air conditioning is simple, doesn't require water. It adds to the desirability and market value of your home.

You get a lot besides cooling. Air throughout the house is crisp, free of excess humidity. A filter in the system removes dust, and up to 98% of the pollens, from the air.

To find out exactly what Whole-House Electric Air Conditioning would cost in your home, get in touch with the dealer, distributor, or department store nearest you. The contractor you choose will be glad to give you a free estimate and financing is easy to arrange.

IN MEMORIAM
BETTENHAUSEN, JOHN G. - In loving memory of my husband, our father, and grandfather who passed away two years ago May 2nd.

Time speeds on, two years have passed
Since death it's gloom, it's shadow cast
They say time heals all sorrow,
and helps us to forget
But time so far has only proved
how much we miss him yet.
Wife, children & grandchildren

Rentschler Will Address GOP Women Tuesday

William H. Rentschler, who has devoted much of his time to furthering interest in the Republican party, will be the featured speaker, on Tuesday, May 7, at 1 p.m. when the Palos Republican Women's Organization meets at the Community Center Foundation, 127th Street and Southwest Highway, Palos Park.

Mr. Rentschler will draw on his experience in GOP affairs to comment on political

situations as they exist on local, state and national levels. His activities in the Republican party include membership on President Eisenhower's Republican committee on program and progress, Illinois chairmanship of the Win-with-Nixon-Lodge program, membership on the executive committee of the United Republican Forum. Most recently he headed the successful citizens committee to elect William J. Scott Re-

publican state treasurer. Mr. Rentschler was a candidate for Republican nomination for the U.S. Senate in 1960, when he was defeated by a 5-4 margin in his first bid for elective office.

A graduate of Princeton university with a bachelor of arts degree, Mr. Rentschler is president of Stevens Candy Kitchens, Inc. He formerly was a newspaper reporter and banker. He serves the Chicago Boys clubs and the Chicago Council on Foreign Relations as a director and is a trustee for Rockford college.

All residents in the area are invited to hear him speak on Tuesday, May 7, at 1 p.m. Refreshments will be served after Mr. Rentschler's address. A sitting service for children two years old and older will again be available for a nominal charge of 50 cents.

Denies Plea For Change In Zoning Setback Rule

While sympathetic with the plight of Mr. and Mrs. Vincent Cullotta, owner of a lot on Bonness ave., -- lot 4 in Bonness re-subdivision, Mokena, is the way the legal description goes in part -- the Mokena zoning board of appeals have rejected their petition for a variation from the requirements set up in the zoning ordinance.

The Vincents ask that they be allowed to locate a house on the lot with a 16-foot setback instead of the 25 feet required by ordinance and they would also like the side yard setbacks reduced from eight to three feet.

The lot in question is a diamond shaped affair and not too large, according to zoning board members, pointing out that the proposed house would have had an area of 800 square feet.

In reaching their decision the zoning board members considered the effect such setbacks would have on the surrounding area as well as the position of the applicants. The members felt that such setbacks would tend to depreciate the value and desirability of surrounding property, unimproved as well as improved and also be "not in keeping with the letter or the spirit of the zoning ordinance."

Daylight Time

Dangerous Time, Motorists Told

The return to central daylight time at 2 a.m. last Sunday, has brought longer daylight hours, increased evening play-time for children, and the need for extra alertness by home-bound motorists, cautioned G.W. Cavanagh, president of the Chicago Motor Club.

"Warmer weather and longer daylight hours bring out the youngsters in the late afternoon, and, unfortunately, they are not always discriminating as to their choice of playing areas," Cavanagh said. "Because a child busy with play is seldom alert to the dangers of traffic, it is the motorist's responsibility to be especially alert for

forgetful youngsters." He said that the danger is greatest in cities during the evening rush hour peak, because children are most likely to be playing at this time -- many in non-supervised areas. Cavanagh urged drivers to remain alert for such tell-tale signs as a ball rolling from between parked cars or a dog running across the street.

"It is essential that parents instruct their youngsters in sound pedestrian safety practices and urge them to seek recreation in supervised areas, not in the streets," he added.

Busy Month Ahead For Altar & Rosary Society

St. Michael's Altar and Rosary Society of Orland Park has a busy May planned for its parishioners and friends.

On the list is The Mother-Daughter communion breakfast. This year it will be held on May 5 in the church basement after the 8 o'clock mass. All the mothers and daughters of the parish are cordially invited to attend. Mrs. Oscar Enk is chairman for the affair and tickets may be obtained from her.

On May 14 at 8 p.m. the election of officers for the coming year will be held at the regular monthly meeting.

A fund raising event will be held again this year on May 18. At the farm home of Mrs. Robert Arnold an auction of many, many treasures collected

by the members of the Altar and Rosary group during the last year will be held. Ed. Schmaedeke will handle the auction and Mrs. Arnold is in charge of the event. Everyone is invited.

On Sunday afternoon, May 26, from 2 until 4 p.m., the parishioners will get to join the sisters teaching at St. Michael's school at the annual Sister's tea.

"This is always a lovely affair," said Mrs. Remi Reynen, chairman "and all are invited to chat with the sisters and give them a vote of thanks for the wonderful job they do all year with our children."

The last scheduled event for May is the Mothers card party. On May 28 at 8 p.m. it is held monthly to help defray expenses of the school.

MAY 2, 1963

You are invited to witness the laying of the cornerstone of Trinity's new

church and administration building on Sunday, May 19th, at 3:00 p.m. at 159th and Oak Park, Tinley Park, Illinois.

You are also invited to worship with us every Sunday at 8:00 or 10:30 a.m. and to attend Sunday School or Bible Class at 9:15 a.m.

The precious blood of Christ was the price paid for you that you might belong wholly to God. God has a threefold right to you. He has created you. He has redeemed you. He sanctifies you. Some day you will have to give an account to Him. Where will you stand?

I pray that I will see you soon.

TORNADO WARNING

Chicago-Heights had a tornado warning the other day -- Kankakee was hit by a tornado this year -- last year it was El Vista -- the year before that, part of Chicago. Where next?

Outside of your family, your next precious possession is your home. Have you checked your insurance policy lately? Do you have sufficient coverage? Do you know the value of your home? What would you expect to receive in the event of a partial or total loss? Will you get full replacement cost or will you get the actual cash value of your home, which means that a depreciation factor enters into your claim. Does your policy contain a coinsurance clause?

And above all, who will represent you in the event of a loss? Will you stand alone at the mercy of an adjuster? Every policy states that the INSURED MUST PREPARE HIS OWN PROOF OF LOSS.

Let us help you be prepared. Let us evaluate and professionally appraise your home NOW. Let us sketch out the floor plan and take pictures of your home. We will render this service with NO OBLIGATION on your part. Allow us to prepare a package Homeowners policy with complete coverage to fit your particular need.
